

## 2025 Thursday Thunder Tire Rules

All tires for all Legend Car divisions and Bandolero divisions must comply with the 2025 INEX Rulebook. No altering of tires will be allowed; No cutting, buffing, grinding, or treating is permitted.

### PRE-QUALIFYING TIRE INSPECTION

- Tire inspection will be done during the mandatory driver's meeting for Pro, Semi-Pro, Masters, Young Lions, Outlaws and Bandit divisions. The tires that are on your car at this time will be the tires you are required to use for QUALIFYING and FEATURE RACING.
- No other tires will be permitted in the garage or work area at any time.
- Any tires suspected of being altered will be confiscated and destroyed with possible further disciplinary action.
- CHARGERS and ROOKIE BANDOLERO divisions are exempt from tire inspection, but must be INEX legal Hoosier Racing Tires.
- BANDOLERO TIRE INSPECTION: Tires must be off the car and stacked next to the car.
- Once tires are reattached to your Legend Car or Bandolero, they can't be removed without notifying an INEX Tech Inspector in the garage. If a tire is removed with approval from an INEX Tech Inspector, the tire(s) must remain with the car.
- No tires will be permitted to be taken outside the garage area or to your trailer.
