

Introducing Eibach as the Official Spring of U.S. Legend Cars International

HARRISBURG, N.C. (May 29, 2026) - U.S. Legend Cars International is proud to announce a new partnership with Eibach, marking an exciting collaboration between the two motorsports brands. As part of this partnership, Eibach has been named the Official Spring of U.S. Legend Cars International and will become the spring of choice for every new Legend Car and Bandolero produced at the USLCI's manufacturing shop in Harrisburg, North Carolina.

Headquartered in Corona, California, Eibach has built a reputation for delivering premium suspension solutions and performance-driven engineering. Through this partnership, customers will have access to Eibach's 8-inch and 10-inch spring offerings for both Legend Cars and Bandoleros. In addition to being incorporated into all new vehicle builds, these springs are now available for purchase through U.S. Legend Cars International's network of dealers and directly to customers, expanding access to a trusted product designed to enhance performance on the track.
